

THE NEW GROUP OF WORLD SERVERS

The New Group of World Servers is something Alice Bailey wrote about in some of her writings. It is an inclusive group of human beings who aspire to support the progress of the planet and all the Kingdoms of Nature, mineral, plant, animal and human. This informal group is composed of people of all levels of development that “feel the need in their hearts and minds” to establish “right human relations” by applying themselves to this noble cause in whatever way they are willing and able to. It is inclusive of all nations, races, religions and sexual orientations that seek to expand into the Light of Intelligent Application of the Universal Law of Cause and Effect. This Group, with courage and persistence, accepts to take up the struggle against separateness, privilege, exclusivity, greed, totalitarianism, arrogance and hatred wherever it abounds by applying the higher energy of love/wisdom as best they are able to.

The more experienced members of this group recognise the Evolution of the Human Soul as a “fact” and that there are expanded souls that have gone before us who are now, as ever, ready to support the Kingdoms of Nature at this time of mankind’s awareness of the need for a “Sustainable Future”. This awareness, in itself, is an evocation to these Great Avatars to now give a helping hand to humanity, “Seek and Ye Shall Find”, “Ask and It Will be Given unto You”. There are more humans than ever before who have the “wellbeing of humanity and the planet” as a key aspiration anchored within their hearts. This evocative call is ever heard and Great Beings stand ready to support, some of who include the “Christ”, “Buddha” and the “Avatar of Synthesis”.

Many of this Group will work in an outward and active way to support many different causes and programs that move the evolution of humans and the kingdom of nature forward. Change is the key in all these areas and the majority at this time is looking outside self to push for change. Some will look in the mirror and recognise that the greatest change may be in changing one’s self. To dig down into one’s shadow side or resistant qualities and bit by bit work to transform those qualities into the higher vibrational quality of “detached involvement”. This is a place where one accepts everything as it is with the awareness that judging and

condemning things which they have no way of influencing is a negative endeavor which will only deplete their own energy and weaken their resolve to spread the “light” where they can. With determination, self evaluation, enthusiasm and an open heart, over time one will reach a level of “enlightenment” which serves to bring light to all that they connect with.

The “Aquarian Age” is the “Age of Group Work” and the “New Group of World Servers” is an integral part of this “New Age”. All that carry “goodwill towards mankind” are a part of it, be it conscious or unconscious, it matters not. May we all take comfort and joy in this realization and do our part with courage and resolve. May the plan of “Light and Love and Power” restore the Plan on Earth.

Ross Sinclair, Exc. Director of the “Universal Foundation for the Creative Heart”
